Yujun Xu, *Gulden Leeuw* (Netherlands)

Yujun is from Wuxi, China and The Tall Ships Race was her first ever experience on any kind of ship.

When she joined the vessel she was shy and quiet and felt isolated amongst a crew of confident Europeans. She struggled with the physical aspects of sailing and with the range of different nationalities and cultures. But she transformed during the voyage and made an outstanding and very unique contribution. As her crew helped her, she in turn helped her crew to find their strengths. She nurtured international understanding and the sharing of different cultures and became a very popular and much loved team player.

Friendship Trophy

Awarded to the vessel that, in the opinion of the other captains and crews, have contributed the most towards international friendship an understanding during The Tall Ships Races 2013.
